Thank you all for trying to remedy the situation. Can't we just change from IMAP to POP as Tom suggested the other day?

Tom,

We are having some very serious problems with Lisa Schechter's email (sending and receiving). I had a Geek Squad Mac guy come into the office last Friday, but the problem/settings on Lisa's end were not resolved to remedy the problem. At this point, I requesting either a conference call or an in-office consultation by you to make Lisa's email all work properly. Also, I could have the Geek come back and we could do a conference call. Either which way, please get back to me ASAP and thanks.
